

PEST BIOSECURITY PROGRAM - PCO WORKSHOPS – JANUARY 2019

AGENDA

The Pest Biosecurity Program is hosting PCO workshops in January 2019, one in each SARM division. These educational workshops are provided free of charge and will be facilitated by the CAP-RCP Provincial Coordinator, Grant Peeling along with the Plant Health Officer in each division.

Take this opportunity to meet the Plant Health Officers (PHO) and learn about their role in the new Pest Biosecurity Programs funded under the Canadian Agricultural Partnership (CAP). You will learn how PHOs will work with all Pest Control Officers and RMs in rat control efforts and provide support with the *Saskatchewan Pest Control Act*. Workshops will also feature presentations on potential diseases threats from rodents, PMRA requirements as well as information on existing and new baits now available. These accredited workshops are provided **free of charge** to Saskatchewan Pest Control Officers, Councillors and anyone interested in these roles. **All workshops run 10:00 am – 3:00 pm.** The agenda and registration form are available [here](#) or visit the CAP-RCP program page on the SARM website at [sarm.ca](#).

9:00 – 10:00 am	<i>Registration</i> PRESENTATIONS START AT 10:00 AM
