- (a) exempt a use from the requirements of providing parking facilities; and
 - (b) require the applicant to pay to the council, subject to any terms and conditions that the council may determine, a sum, calculated by multiplying the number of parking spaces that would otherwise be required to be provided with that use by the amount fixed for each parking space in accordance with clause (2)(b).
- (2) If a zoning bylaw contains provisions with respect to payment in lieu of the provision of parking facilities as set out in subsection (1):
- (a) the zoning bylaw is required to define the area to which the payment applies;

- (3) No person who pays or agrees in writing to pay the sum the person is required to pay in lieu of providing parking facilities is required to provide those facilities in lieu of which the payment or agreement to pay is made, and the use with respect to which the payment or agreement to pay is made is required to be treated as having the required parking facilities.
- (4) Every municipality shall maintain a permanent record of all payments or agreements to pay in lieu of providing parking facilities and, if an applicant fails to pay any sum due under an agreement, that sum may:
- (a) be added to and form part of the taxes on the land or buildings with respect to which the agreement to pay was made; or
 - (b) be recovered from the applicant by an action in debt in any court of competent jurisdiction as a debt due to the municipality and the agreement is, in the absence of evidence to the contrary, proof of the debt.

PART VIII Development Levies and Servicing Fees

Interpretation of Part

168 In this Part, “**capital cost**” means the municipality’s estimated cost of providing construction, planning, engineering and legal services that are directly related to the matters for which development levies and servicing agreement fees are established pursuant to sections 169 and 172, as the case may be, but does not include any cost of maintaining roadways, other related infrastructure and public facilities.

2007, c.P-13.2, s.168; 2012, c.28, s.28.

Development levy bylaw

169(1) If a council has adopted an official community plan that authorizes the use of development levies, the council may, by bylaw, establish development levies to recover the capital costs of services and facilities as prescribed in subsections (2) and (3).

- (2) If a development does not involve the subdivision of land, a council may impose development levies for the purpose of recovering all or a part of the municipality's capital costs of providing, altering, expanding or upgrading the following services and facilities associated, directly or indirectly, with a proposed development:
- (a) sewage, water or drainage works;
 - (b) roadways and related infrastructure;
 - (c) parks;
 - (d) recreational facilities.
- (3) The development levy bylaw shall only permit development levies to be imposed if the municipality will incur additional capital costs as a result of the proposed development.
- (4) The levies in the development levy bylaw must be based on:
- (a) a study or studies that determine the capital costs of municipal servicing and recreational requirements that service the area for which the levy is applied; and
 - (b) consideration by council of future land use patterns and development and the phasing of public works.
- (5) The development levy bylaw must specify the levies to be made for services and facilities and may vary those levies having regard to:
- (a) zoning districts or other defined areas;
 - (b) land uses;
 - (c) capital costs as they relate to different classes of development as established in the bylaw; or
 - (d) the size or number of lots or units in a development.
- (6) The development levy bylaw must provide that similar levies be imposed for developments that impose similar capital costs to the municipality.
- (7) The development levy bylaw may exempt land uses, classes of development, zoning districts or defined areas specified in the bylaw from the levies.
- (8) The development levy bylaw may delegate to a development officer the authority to exercise all or any part of the council's powers, and to carry out all or any of the council's duties, pursuant to this section, section 171, and sections 173 to 176 of this Act and the bylaw, other than the power to enter into development levy agreements with an applicant or owner.
- (9) Adoption of a development levy bylaw must be in accordance with the public participation requirements of Part X.

(10) Subsection (9) does not apply if a council that has been declared an approving authority pursuant to subsection 13(1) has adopted provisions related to development levy bylaws in a public notice bylaw pursuant to section 24;

(11) If providing, altering, expanding or upgrading of services mentioned in subsection (2) will result in capital costs for facilities located outside the municipality in which the proposed development is to occur, the development levy bylaw may require:

- (a) payment to the other municipality that will bear those capital costs; and
- (b) submission to the municipality of an agreement that satisfies the municipality that the other municipality will provide, alter, expand or upgrade those services and bear those capital costs.

2007, c.P-13.2, s.169; 2012, c.28, s.29.

Bylaw requires ministerial approval

170(1) The municipal administrator shall submit to the minister:

- (a) two certified copies of the development levy bylaw passed pursuant to section 169; and
 - (b) proof of compliance with the requirements of Part X in the form of a statutory declaration of the municipal administrator, together with a copy of all representations respecting the bylaw.
- (2) A bylaw mentioned in subsection (1) has no effect unless it is approved by the minister.
- (3) Notwithstanding subsections (1) and (2), a council that has been declared an approving authority pursuant to subsection 13(1) is exempt from obtaining the minister's approval of the adoption, amendment or repeal of a development levy bylaw.

2007, c.P-13.2, s.170.

Development levy agreement

171(1) If a person applies for a development permit, a council that has passed a development levy bylaw pursuant to section 169 may require the applicant or the owner of the land to pay any applicable development levies in accordance with that bylaw.

(2) If, in the opinion of the council, it is necessary to do so, the council or development officer may require the applicant or owner mentioned in subsection (1) to enter into a development levy agreement with the municipality respecting the payment of the development levies.

(3) Subject to subsection 169(3), a council may assess only one development levy on one development.

2007, c.P-13.2, s.171.

Servicing agreement

172(1) If there is a proposed subdivision of land, the municipality in which the subdivision is located may require a subdivision applicant to enter into a servicing agreement to provide services and facilities that directly or indirectly serve the subdivision.

(2) Subdivision applicants shall not receive a certificate of approval from the approving authority if a servicing agreement is required by the municipality and has not been signed by the parties to the agreement.

(3) Servicing agreements may provide for:

(a) the undertaking by the applicant to install or construct within the proposed subdivision, and in accordance with the specifications stated in the agreement, any storm sewers, sanitary sewers, drains, watermains and laterals, hydrants, sidewalks, boulevards, curbs, gutters, street lights, graded, gravelled or paved streets and lanes, connections to existing services, area grading and levelling of land, street name plates, connecting and boundary streets, landscaping of parks and boulevards, public recreation facilities or other works that the council may require;

(b) the payment by the applicant of fees that the council may establish as payment in whole or in part for the capital cost of providing, altering, expanding or upgrading sewage, water, drainage and other utility services, public highway facilities, or park and recreation space facilities, located within or outside the proposed subdivision, and that directly or indirectly serve the proposed subdivision;

(c) time limits for the completion of any work or the payment of any fees specified in the agreement, which may be extended by agreement of the applicant and the municipality;

(d) provisions for the applicant and the municipality to share the costs of any work specified in the agreement;

(e) any assurances as to performance that the council may consider necessary;

(f) the amount and location of any land for a municipal utility pursuant to section 172.1 that the municipality may require for the location of a public work or public utility; and

(g) if the provision, alteration, expansion or upgrading of services mentioned in clause (b) will result in capital costs for facilities located outside the municipality in which the subdivision is to occur, a requirement that:

(i) payment will be made by the applicant to the other municipality that will bear those capital costs; and

(ii) there must be submitted to the municipality an agreement that specifies that the other municipality will bear those capital costs.

- (4) Servicing agreements shall not provide for the completion of any work by the applicant or the payment of any fees by the applicant that were previously addressed by the payment of development levies or in a development levy agreement pursuant to section 171, unless the municipality will incur additional capital costs as a result of the proposed subdivision.
- (5) If required to do so by the municipality, an applicant for subdivision approval shall enter into a servicing agreement within 90 days after the day that the municipality receives the subdivision application.
- (6) The period prescribed in subsection (5) may be extended by agreement of the municipality and the applicant for subdivision approval.

2007, c.P-13.2, s.172; 2012, c.28, s.30.

- (2) A municipal utility parcel must be designated on a plan of subdivision as “Municipal Utility MU 1” or “Municipal Utility MU 2” and so on as the case may require.
- (3) Land provided pursuant to this section as a municipal utility parcel is the property of the municipality in which the municipal utility parcel is located.
- (4) The municipality that owns a municipal utility parcel may lease the municipal utility parcel to a person providing a public work or public utility.
- (5) A municipality may, by resolution, do all or any of the following:
- (a) designate any parcel of land that it owns as a municipal utility parcel and cause that designation to be registered on the title for the parcel;
 - (b) declare that any land that has been designated as a municipal utility parcel is no longer required as a municipal utility parcel and cause the designation to be removed from the title to the parcel if the public works or public utilities that were provided on the municipal utility parcel:
 - (i) have been relocated to other lands; or
 - (ii) are no longer required.
- (6) If the Municipal Utility designation mentioned in subsection (2) has not been removed in accordance with clause (5)(b), a municipality shall not:
- (a) exchange a municipal utility parcel for other lands; or
 - (b) sell a municipal utility parcel.

PART IX Dedicated Lands

DIVISION 1 Buffer Strips

Provision of buffer strips

177(1) If, in the opinion of the approving authority, a plan of proposed subdivision requires the provision of land as a buffer between adjacent land put to a use not compatible with that proposed for the subdivision, the owner of the land shall provide, without compensation, land sufficient for that purpose.

(2) Any land provided pursuant to subsection (1) is in addition to the dedication of lands required by this Act.

2007, c.P-13.2, s.177.

Size and location

178 The amount of land required to be provided as a buffer strip and the location of the buffer strip are at the discretion of the approving authority and, on issuance of title pursuant to the approved plan of subdivision, the land becomes the property of the municipality in which it is located.

(5) The minister may refuse any sale of a buffer strip if the minister considers the sale undesirable.

(6) Clause (2)(a) does not apply if a council that has been declared an approving authority pursuant to subsection 13(1) has adopted provisions related to the sale of buffer strips in a public notice bylaw pursuant to section 24.

(7) Clause (2)(b) does not apply to a council that has been declared an approving authority pursuant to subsection 13(1).

(3) The exchange of a buffer strip shall comply, with any necessary modification, with the requirements of section 179.

(4) Notwithstanding subsection (3), the minister may, on the request of a council, dispense with the public participation requirements of Part X if he or she is of the opinion that the proposed exchange is of a minor nature.

- (5) Subject to any regulations made pursuant to section 205, if an environmental reserve is owned by the municipality in which an environmental reserve is located, the municipality may lease the environmental reserve for any purpose provided for by subsection (3).
- (6) No environmental reserve may be sold unless the minister, in consultation with the minister responsible for the administration of *The Environmental Management and Protection Act, 2002*, with the Saskatchewan Watershed Authority, or with any other agency the minister may determine, is satisfied that the land in question need no longer be retained as environmental reserve.
- (7) No environmental reserve shall be exchanged for another parcel of land.

2007, c.P-13.2, s.185.
